APPLIED CATALYSIS A: GENERAL

Author Index

Abbadi, A. and Van Bekkum, H.
Highly selective oxidation of aldonic acids to 2-keto-aldonic acids over Pt–Bi and Pt–Pb catalysts 409
Abello, M.C., see Papageorgiou, J.N. 165
Alerasool, S., see Diaz, G. 33
Baiker, A., see Knell, A. 367
Banaszak, T., see Zieba, A. 47
Barthomeuf, D., see Su, B.L. 73
Barthomeuf, D., see Su, B.L. 81
Biffis, A., Corain, B., Cvengrosova, Z., Hronec, M., Jerábek, K. and Králik, M.
Relationships between physico-chemical properties and catalytic activity of polymer-supported palladium catalysts. Part I. Experimental investigations 355
Borkó, L., see Sárkány, A. L181
Breysse, M., see Kougionas, V. 153
Burch, R. and Urbano, F.J.
Investigation of the active state of supported palladium catalysts in the combustion of methane 121
Camacho, M., see Uguina, M.A. 391
Cattenot, M., see Kougionas, V. 153
Centi, G. and Perathoner, S.
Modification of the surface reactivity of vanadium antimonate catalysts during catalytic propane ammoxidation 317
Chang, W.S., Chen, Y.Z. and Yang, B.L.
Oxidative dehydrogenation of ethylbenzene over V^{IV} and V^{V} magnesium vanadates 221
Chen, Y.Z., see Chang, W.S. 221
Clerici, M.G., see Flego, C. 107
Corain, B., see Biffis, A. 355
Cortés Corberán, V., see Juárez López, R. 281
Cozens, R.J., see Jennings, J.R. 297
Cvengrosova, Z., see Biffis, A. 355
Deeba, M., Farrauto, R.J. and Lui, Y.K.
Stabilization of platinum on silica promoted with lanthanum oxide and zirconium oxide 339
Diaz, G., Garin, F., Maire, G., Alerasool, S. and Gonzalez, R.D.
Hydrogenolysis of methylcyclopentane and isomerization of 2-methylpentane over well characterized silica-supported platinum–ruthenium catalysts 33
Elfline, S.D., see Yoo, J.S. 139
Fang, X., see Wu, J. 9
Farrauto, R.J., see Deeba, M. 339
Fierro, J.L.G., see Juárez López, R. 281
Flego, C., Kiricsi, I., Parker Jr., W.O. and Clerici, M.G.
Spectroscopic studies of LaHY-FAU catalyst deactivation in the alkylation of isobutane with 1-butene 107
Froment, G.F., see Papageorgiou, J.N. 165
Fu, Z., Yin, D., Yang, Y. and Guo, X.
Characterization of modified ZSM-5 catalysts for propane aromatization prepared by a solid state reaction 59
Garin, F., see Diaz, G. 33
Godjayeva, N.S., see Juárez López, R. 281
Gonzalez, R.D., see Diaz, G. 33
Guczi, L., see Sárkány, A. L181
Guo, X., see Fu, Z. 59
Hightower, J.W., see Sárkány, A. L181
Hronec, M., see Biffis, A. 355
Ihm, S.-K., see Jeon, J.-K. 91
Jennings, J.R. and Cozens, R.J.
Catalytic dimerisation of acrylonitrile. I. Homogeneous catalysts from alkyl diarylphosphinites and dialkyl arylphosphonites 297
Jeon, J.-K., Jeong, K.-E., Park, Y.-K. and Ihm, S.-K.
Selective synthesis of C_3–C_4 hydrocarbons through carbon dioxide hydrogenation on hybrid catalysts composed of a methanol synthesis catalyst and SAPO 91
Jeong, K.-E., see Jeon, J.-K. 91
Jerábek, K., see Biffis, A. 355
Juárez López, R., Godjayeva, N.S., Cortés Corberán, V., Fierro, J.L.G. and Mamedov, E.A.
Oxidative dehydrogenation of ethane on supported vanadium-containing oxides 281
Katada, N., Tsubouchi, T., Niwa, M. and Murakami, Y.
Vapor-phase Beckmann rearrangement over silica

monolayers prepared by chemical vapor deposition 1
Kiricsi, I., see Flego, C. 107
Knell, A., Monti, D., Maciejewski, M. and Baiker, A.
Catalytic dehydrogenation of 10,11-dihydro-5H-dibenz[b.f]azepine (iminodibenzyl) to 5H-dibenz[b.f]azepine (iminostilbene) over potassium-promoted iron oxides: effect of steam, potassium promotion and carbon dioxide treatment 367
Kolboe, S., see Unneberg, E. 345
Kougionas, V., Cattenot, M., Zotin, J.L., Portefaix, J.L. and Breysse, M.
Enhancement of the catalytic properties of NiMo and CoMo alumina-supported sulfide catalysts by addition of ruthenium sulfide dispersed in Y zeolites 153
Králik, M., see Biffis, A. 355
Li, S., see Wu, J. 9
Lin, P.S., see Yoo, J.S. 139
Lui, Y.K., see Deeba, M. 339
Maciejewski, M., see Knell, A. 367
Maire, G., see Diaz, G. 33
Mamedov, E.A., see Juárez López, R. 281
Miczko, B., see Pattek-Janczyk, A. 253
Miller, R., see Zieba, A. 47
Millet, J.M.M., see Rouzies, D. 189
Millet, J.M.M., Rouzies, D. and Védrine, J.C.
Isobutyric acid oxidative dehydrogenation over iron hydroxyphosphates. II. Tentative description of the catalytic sites based on Mössbauer spectroscopic study 205
Monti, D., see Knell, A. 367
Murakami, Y., see Katada, N. 1
Niu, J., see Wu, J. 9
Niwa, M., see Katada, N. 1
Ovejero, G., see Uguina, M.A. 391
Papageorgiou, J.N., Abello, M.C. and Froment, G.F.
Erratum to: Kinetic modeling of the catalytic oxidation of *o*-xylene over an industrial V_2O_5–TiO_2 (anatase) catalyst (Appl. Catal. 120 (1994) 17–44) (APCATA2863) 165
Park, Y.-K., see Jeon, J.-K. 91
Parker Jr., W.O., see Flego, C. 107
Pattek-Janczyk, A. and Miczko, B.
Effect of preliminary heating on the activation of model iron catalyst for ammonia synthesis 253
Pattek-Janczyk, A.
Effect of preliminary heating on the activation of model iron catalyst for ammonia synthesis. Part II. Structural changes leading up to the nucleation process 267
Perathoner, S., see Centi, G. 317
Portefaix, J.L., see Kougionas, V. 153
Rouzies, D., Millet, J.M.M., Siew Hew Sam, D. and Védrine, J.C.
Isobutyric acid oxidative dehydrogenation over iron hydroxyphosphates. I. Catalytic properties and role of water 189
Rouzies, D., see Millet, J.M.M. 205
Sarbak, Z.
Hydroconversion of alkenes over silica supported chromium(II) catalysts 245
Sárkány, A., Schay, Z., Stefler, Gy., Borkó, L., Hightower, J.W. and Guczi, L.
Hydrogenation of 1,3-butadiene over catalysts prepared from amorphous $Pd_2Ni_{50}Nb_{48}$ ribbon: Effect of self-poisoning on competitive adsorption L181
Schay, Z., see Sárkány, A. L181
Serrano, D.P., see Uguina, M.A. 391
Siew Hew Sam, D., see Rouzies, D. 189
Stefler, Gy., see Sárkány, A. L181
Su, B.L. and Barthomeuf, D.
Alkylation of aniline with methanol: change in selectivity with acido-basicity of faujasite catalysts 73
Su, B.L. and Barthomeuf, D.
Comparison of acid–base properties of FAU, EMT, LTL and MOR (Na forms) in benzene adsorption and alkylation of aniline with methanol 81
Tsubouchi, T., see Katada, N. 1
Uguina, M.A., Serrano, D.P., Ovejero, G., Van Grieken, R. and Camacho, M.
Preparation of TS-1 by wetness impregnation of amorphous SiO_2–TiO_2 solids: influence of the synthesis variables 391
Unneberg, E. and Kolboe, S.
H-[B]-ZSM-5 as catalyst for methanol reactions 345
Urbano, F.J., see Burch, R. 121
Ushikubo, T. and Wada, K.
Preparation, characterization, and catalytic activities of silica-supported tantalum oxide for the vapor phase decomposition of methyl *tert*-butyl ether 19
Van Bekkum, H., see Abbadi, A. 409
Van Grieken, R., see Uguina, M.A. 391
Védrine, J.C., see Rouzies, D. 189
Védrine, J.C., see Millet, J.M.M. 205
Wada, K., see Ushikubo, T. 19
Wu, J., Li, S., Niu, J. and Fang, X.
Mechanistic study of oxidative coupling of methane over Mn_2O_3–Na_2WO_4/SiO_2 catalyst 9
Yang, B.L., see Chang, W.S. 221
Yang, Y., see Fu, Z. 59
Yin, D., see Fu, Z. 59
Yoo, J.S., Lin, P.S. and Elfline, S.D.
Gas-phase oxygen oxidations of alkylaromatics over CVD Fe/Mo/borosilicate molecular sieve.

V. *Para*-selective oxidations of methylaromatics 139
Zieba, A., Banaszak, T. and Miller, R.
Thermal-catalytic oxidation of waste gases 47
Zotin, J.L., see Kougionas, V. 153

APPLIED CATALYSIS A: GENERAL

Subject Index

Accessibility
Relationships between physico-chemical properties and catalytic activity of polymer-supported palladium catalysts. Part I. Experimental investigations 355
Acidity
Preparation, characterization, and catalytic activities of silica-supported tantalum oxide for the vapor phase decomposition of methyl *tert*-butyl ether 19
Alkylation of aniline with methanol: change in selectivity with acido-basicity of faujasite catalysts 73
H-[B]-ZSM-5 as catalyst for methanol reactions 345
Acrylonitrile
Catalytic dimerisation of acrylonitrile. I. Homogeneous catalysts from alkyl diarylphosphinites and dialkyl arylphosphonites 297
Modification of the surface reactivity of vanadium antimonate catalysts during catalytic propane ammoxidation 317
Aging
Comparison of acid–base properties of FAU, EMT, LTL and MOR (Na forms) in benzene adsorption and alkylation of aniline with methanol 81
Aldonic acids
Highly selective oxidation of aldonic acids to 2-keto-aldonic acids over Pt–Bi and Pt–Pb catalysts 409
Alkylation
Alkylation of aniline with methanol: change in selectivity with acido-basicity of faujasite catalysts 73
Comparison of acid–base properties of FAU, EMT, LTL and MOR (Na forms) in benzene adsorption and alkylation of aniline with methanol 81
H-[B]-ZSM-5 as catalyst for methanol reactions 345
Ammonia synthesis
Effect of preliminary heating on the activation of model iron catalyst for ammonia synthesis 253
Effect of preliminary heating on the activation of model iron catalyst for ammonia synthesis. Part II. Structural changes leading up to the nucleation process 267
Ammonia TPD
Selective synthesis of C_3–C_4 hydrocarbons through carbon dioxide hydrogenation on hybrid catalysts composed of a methanol synthesis catalyst and SAPO 91
Aniline
Alkylation of aniline with methanol: change in selectivity with acido-basicity of faujasite catalysts 73
Comparison of acid–base properties of FAU, EMT, LTL and MOR (Na forms) in benzene adsorption and alkylation of aniline with methanol 81
Annealing
Effect of preliminary heating on the activation of model iron catalyst for ammonia synthesis. Part II. Structural changes leading up to the nucleation process 267
Basicity
Alkylation of aniline with methanol: change in selectivity with acido-basicity of faujasite catalysts 73
Batchwise system
Relationships between physico-chemical properties and catalytic activity of polymer-supported palladium catalysts. Part I. Experimental investigations 355
Beckmann rearrangement
Vapor-phase Beckmann rearrangement over silica monolayers prepared by chemical vapor deposition 1
Benzene adsorption
Comparison of acid–base properties of FAU, EMT, LTL and MOR (Na forms) in benzene adsorption and alkylation of aniline with methanol 81
Bimetallics
Hydrogenolysis of methylcyclopentane and isomerization of 2-methylpentane over well

characterized silica-supported platinum–ruthenium catalysts 33
Bismuth/platinum/carbon
Highly selective oxidation of aldonic acids to 2-keto-aldonic acids over Pt–Bi and Pt–Pb catalysts 409
Borosilicates
H-[B]-ZSM-5 as catalyst for methanol reactions 345
Brønsted acid sites
Vapor-phase Beckmann rearrangement over silica monolayers prepared by chemical vapor deposition 1
Butadiene hydrogenation
Hydrogenation of 1,3-butadiene over catalysts prepared from amorphous $Pd_2Ni_{50}Nb_{48}$ ribbon: Effect of self-poisoning on competitive adsorption L181
Butenes
Hydrogenation of 1,3-butadiene over catalysts prepared from amorphous $Pd_2Ni_{50}Nb_{48}$ ribbon: Effect of self-poisoning on competitive adsorption L181
C_{2+} hydrocarbons
Selective synthesis of C_3–C_4 hydrocarbons through carbon dioxide hydrogenation on hybrid catalysts composed of a methanol synthesis catalyst and SAPO 91
Calcination
Hydroconversion of alkenes over silica supported chromium(II) catalysts 245
ϵ-Caprolactam
Vapor-phase Beckmann rearrangement over silica monolayers prepared by chemical vapor deposition 1
Carbon dioxide
Selective synthesis of C_3–C_4 hydrocarbons through carbon dioxide hydrogenation on hybrid catalysts composed of a methanol synthesis catalyst and SAPO 91
Catalyst characterization (ESR/IR/TPD/TPR)
Characterization of modified ZSM-5 catalysts for propane aromatization prepared by a solid state reaction 59
Catalyst characterization (SEM/IR/BET/XRD/NMR/ICP)
H-[B]-ZSM-5 as catalyst for methanol reactions 345
Catalytic oxidation
Thermal-catalytic oxidation of waste gases 47
Chemical vapor deposition
Vapor-phase Beckmann rearrangement over silica monolayers prepared by chemical vapor deposition 1
Chemical vapour deposition
Gas-phase oxygen oxidations of alkylaromatics over CVD Fe/Mo/borosilicate molecular sieve. V. *Para*-selective oxidations of methylaromatics 139
Chromium/silica
Hydroconversion of alkenes over silica supported chromium(II) catalysts 245
Copper
Selective synthesis of C_3–C_4 hydrocarbons through carbon dioxide hydrogenation on hybrid catalysts composed of a methanol synthesis catalyst and SAPO 91
Crystallite size
Relationships between physico-chemical properties and catalytic activity of polymer-supported palladium catalysts. Part I. Experimental investigations 355
Cyclohexanon oxime
Vapor-phase Beckmann rearrangement over silica monolayers prepared by chemical vapor deposition 1
Cyclohexene
Hydroconversion of alkenes over silica supported chromium(II) catalysts 245
Relationships between physico-chemical properties and catalytic activity of polymer-supported palladium catalysts. Part I. Experimental investigations 355
Deactivation
Spectroscopic studies of LaHY-FAU catalyst deactivation in the alkylation of isobutane with 1-butene 107
Dehydrogenation
Isobutyric acid oxidative dehydrogenation over iron hydroxyphosphates. I. Catalytic properties and role of water 189
Catalytic dehydrogenation of 10,11-dihydro-5H-dibenz[b.f]azepine (iminodibenzyl) to 5H-dibenz[b.f]azepine (iminostilbene) over potassium-promoted iron oxides: effect of steam, potassium promotion and carbon dioxide treatment 367
Dicyanobutene (1,4-)
Catalytic dimerisation of acrylonitrile. I. Homogeneous catalysts from alkyl diarylphosphinites and dialkyl arylphosphonites 297
10,11-Dihydro-5H-dibenz[b.f]azepine
Catalytic dehydrogenation of 10,11-dihydro-5H-dibenz[b.f]azepine (iminodibenzyl) to 5H-dibenz[b.f]azepine (iminostilbene) over potassium-promoted iron oxides: effect of steam, potassium promotion and carbon dioxide treatment 367
Dimerisation
Catalytic dimerisation of acrylonitrile. I. Homogeneous catalysts from alkyl

diarylphosphinites and dialkyl arylphosphonites 297
Dispersion
Preparation, characterization, and catalytic activities of silica-supported tantalum oxide for the vapor phase decomposition of methyl *tert*-butyl ether 19
Durene
Gas-phase oxygen oxidations of alkylaromatics over CVD Fe/Mo/borosilicate molecular sieve. V. *Para*-selective oxidations of methylaromatics 139
Electron paramagnetic resonance spectroscopy
Mechanistic study of oxidative coupling of methane over Mn_2O_3–Na_2WO_4/SiO_2 catalyst 9
Electron spin resonance
Relationships between physico-chemical properties and catalytic activity of polymer-supported palladium catalysts. Part I. Experimental investigations 355
Ethane oxidative dehydrogenation
Oxidative dehydrogenation of ethane on supported vanadium-containing oxides 281
Ethylbenzene oxidative dehydrogenation
Oxidative dehydrogenation of ethylbenzene over V^{IV} and V^{V} magnesium vanadates 221
Fe/Mo/DBH
Gas-phase oxygen oxidations of alkylaromatics over CVD Fe/Mo/borosilicate molecular sieve. V. *Para*-selective oxidations of methylaromatics 139
Gamma rays
Relationships between physico-chemical properties and catalytic activity of polymer-supported palladium catalysts. Part I. Experimental investigations 355
5H-dibenz[b.f]azepine
Catalytic dehydrogenation of 10,11-dihydro-5H-dibenz[b.f]azepine (iminodibenzyl) to 5H-dibenz[b.f]azepine (iminostilbene) over potassium-promoted iron oxides: effect of steam, potassium promotion and carbon dioxide treatment 367
Heat treatment
Effect of preliminary heating on the activation of model iron catalyst for ammonia synthesis 253
Effect of preliminary heating on the activation of model iron catalyst for ammonia synthesis. Part II. Structural changes leading up to the nucleation process 267
Heterogeneous oxidation
Highly selective oxidation of aldonic acids to 2-keto-aldonic acids over Pt–Bi and Pt–Pb catalysts 409
Hexane oxidation
Preparation of TS-1 by wetness impregnation of amorphous SiO_2–TiO_2 solids: influence of the synthesis variables 391
Hexene
Hydroconversion of alkenes over silica supported chromium(II) catalysts 245
Hybrid catalyst
Selective synthesis of C_3–C_4 hydrocarbons through carbon dioxide hydrogenation on hybrid catalysts composed of a methanol synthesis catalyst and SAPO 91
Hydroconversion
Hydroconversion of alkenes over silica supported chromium(II) catalysts 245
Hydrogenation
Selective synthesis of C_3–C_4 hydrocarbons through carbon dioxide hydrogenation on hybrid catalysts composed of a methanol synthesis catalyst and SAPO 91
Enhancement of the catalytic properties of NiMo and CoMo alumina-supported sulfide catalysts by addition of ruthenium sulfide dispersed in Y zeolites 153
Relationships between physico-chemical properties and catalytic activity of polymer-supported palladium catalysts. Part I. Experimental investigations 355
Iminodibenzyl
Catalytic dehydrogenation of 10,11-dihydro-5H-dibenz[b.f]azepine (iminodibenzyl) to 5H-dibenz[b.f]azepine (iminostilbene) over potassium-promoted iron oxides: effect of steam, potassium promotion and carbon dioxide treatment 367
Iminostilbene
Catalytic dehydrogenation of 10,11-dihydro-5H-dibenz[b.f]azepine (iminodibenzyl) to 5H-dibenz[b.f]azepine (iminostilbene) over potassium-promoted iron oxides: effect of steam, potassium promotion and carbon dioxide treatment 367
Infrared spectroscopy
Spectroscopic studies of LaHY-FAU catalyst deactivation in the alkylation of isobutane with 1-butene 107
Inverse steric exclusion chromatography
Relationships between physico-chemical properties and catalytic activity of polymer-supported palladium catalysts. Part I. Experimental investigations 355
Iron
Effect of preliminary heating on the activation of model iron catalyst for ammonia synthesis 253
Effect of preliminary heating on the activation of model iron catalyst for ammonia synthesis. Part II. Structural changes leading up to the nucleation process 267

Iron hydroxyphosphates
Isobutyric acid oxidative dehydrogenation over iron hydroxyphosphates. I. Catalytic properties and role of water 189
Isobutyric acid oxidative dehydrogenation over iron hydroxyphosphates. II. Tentative description of the catalytic sites based on Mössbauer spectroscopic study 205
Iron oxide
Catalytic dehydrogenation of 10,11-dihydro-5H-dibenz[b.f]azepine (iminodibenzyl) to 5H-dibenz[b.f]azepine (iminostilbene) over potassium-promoted iron oxides: effect of steam, potassium promotion and carbon dioxide treatment 367
Isobutane alkylation
Spectroscopic studies of LaHY-FAU catalyst deactivation in the alkylation of isobutane with 1-butene 107
Isobutene
Preparation, characterization, and catalytic activities of silica-supported tantalum oxide for the vapor phase decomposition of methyl *tert*-butyl ether 19
Isobutyric acid
Isobutyric acid oxidative dehydrogenation over iron hydroxyphosphates. I. Catalytic properties and role of water 189
Isobutyric acid dehydrogenation
Isobutyric acid oxidative dehydrogenation over iron hydroxyphosphates. II. Tentative description of the catalytic sites based on Mössbauer spectroscopic study 205
2-Keto-aldonic acids
Highly selective oxidation of aldonic acids to 2-keto-aldonic acids over Pt–Bi and Pt–Pb catalysts 409
LaHY-FAU catalyst
Spectroscopic studies of LaHY-FAU catalyst deactivation in the alkylation of isobutane with 1-butene 107
Lanthanum oxide
Stabilization of platinum on silica promoted with lanthanum oxide and zirconium oxide 339
Lead/platinum/carbon
Highly selective oxidation of aldonic acids to 2-keto-aldonic acids over Pt–Bi and Pt–Pb catalysts 409
Linear dimerisation
Catalytic dimerisation of acrylonitrile. I. Homogeneous catalysts from alkyl diarylphosphinites and dialkyl arylphosphonites 297
Magnesium metavanadate
Oxidative dehydrogenation of ethylbenzene over V^{IV} and V^{V} magnesium vanadates 221
Magnesium orthovanadate
Oxidative dehydrogenation of ethylbenzene over V^{IV} and V^{V} magnesium vanadates 221
Magnesium pyrovanadate
Oxidative dehydrogenation of ethylbenzene over V^{IV} and V^{V} magnesium vanadates 221
Magnetite
Effect of preliminary heating on the activation of model iron catalyst for ammonia synthesis. Part II. Structural changes leading up to the nucleation process 267
Mechanical mixtures
Enhancement of the catalytic properties of NiMo and CoMo alumina-supported sulfide catalysts by addition of ruthenium sulfide dispersed in Y zeolites 153
Mechanism
Mechanistic study of oxidative coupling of methane over Mn_2O_3–Na_2WO_4/SiO_2 catalyst 9
Mesitylene
Gas-phase oxygen oxidations of alkylaromatics over CVD Fe/Mo/borosilicate molecular sieve. V. *Para*-selective oxidations of methylaromatics 139
Metal–aldonate complexes
Highly selective oxidation of aldonic acids to 2-keto-aldonic acids over Pt–Bi and Pt–Pb catalysts 409
Metal distribution
Relationships between physico-chemical properties and catalytic activity of polymer-supported palladium catalysts. Part I. Experimental investigations 355
Methacrylic acid
Isobutyric acid oxidative dehydrogenation over iron hydroxyphosphates. II. Tentative description of the catalytic sites based on Mössbauer spectroscopic study 205
Methane combustion
Investigation of the active state of supported palladium catalysts in the combustion of methane 121
Methanol
H-[B]-ZSM-5 as catalyst for methanol reactions 345
Methylaromatics
Gas-phase oxygen oxidations of alkylaromatics over CVD Fe/Mo/borosilicate molecular sieve. V. *Para*-selective oxidations of methylaromatics 139
Methylbenzaldehydes
Gas-phase oxygen oxidations of alkylaromatics over CVD Fe/Mo/borosilicate molecular sieve. V. *Para*-selective oxidations of methylaromatics 139

Methylcyclopentane hydrogenolysis
Hydrogenolysis of methylcyclopentane and isomerization of 2-methylpentane over well characterized silica-supported platinum–ruthenium catalysts 33
Methyl *tert*-butyl ether decomposition
Preparation, characterization, and catalytic activities of silica-supported tantalum oxide for the vapor phase decomposition of methyl *tert*-butyl ether 19
Microprobe studies
Effect of preliminary heating on the activation of model iron catalyst for ammonia synthesis. Part II. Structural changes leading up to the nucleation process 267
Microscopic studies
Effect of preliminary heating on the activation of model iron catalyst for ammonia synthesis. Part II. Structural changes leading up to the nucleation process 267
Modification
Characterization of modified ZSM-5 catalysts for propane aromatization prepared by a solid state reaction 59
Mössbauer spectroscopy
Isobutyric acid oxidative dehydrogenation over iron hydroxyphosphates. II. Tentative description of the catalytic sites based on Mössbauer spectroscopic study 205
$NaBH_4$
Relationships between physico-chemical properties and catalytic activity of polymer-supported palladium catalysts. Part I. Experimental investigations 355
Nuclear magnetic resonance spectroscopy (^{13}C)
Spectroscopic studies of LaHY-FAU catalyst deactivation in the alkylation of isobutane with 1-butene 107
Octene
Hydroconversion of alkenes over silica supported chromium(II) catalysts 245
Oligomerization
Hydrogenation of 1,3-butadiene over catalysts prepared from amorphous $Pd_2Ni_{50}Nb_{48}$ ribbon: Effect of self-poisoning on competitive adsorption L181
Oxygen activation
Mechanistic study of oxidative coupling of methane over Mn_2O_3–Na_2WO_4/SiO_2 catalyst 9
Palladium
Investigation of the active state of supported palladium catalysts in the combustion of methane 121
Relationships between physico-chemical properties and catalytic activity of polymer-supported palladium catalysts. Part I. Experimental investigations 355
Palladium–nickel–niobium
Hydrogenation of 1,3-butadiene over catalysts prepared from amorphous $Pd_2Ni_{50}Nb_{48}$ ribbon: Effect of self-poisoning on competitive adsorption L181
Para-selective oxidation
Gas-phase oxygen oxidations of alkylaromatics over CVD Fe/Mo/borosilicate molecular sieve. V. *Para*-selective oxidations of methylaromatics 139
Phase and surface composition
Oxidative dehydrogenation of ethane on supported vanadium-containing oxides 281
Phosphinite catalyst
Catalytic dimerisation of acrylonitrile. I. Homogeneous catalysts from alkyl diarylphosphinites and dialkyl arylphosphonites 297
Phosphonite catalyst
Catalytic dimerisation of acrylonitrile. I. Homogeneous catalysts from alkyl diarylphosphinites and dialkyl arylphosphonites 297
Platinum
Stabilization of platinum on silica promoted with lanthanum oxide and zirconium oxide 339
Platinum–ruthenium catalysts
Hydrogenolysis of methylcyclopentane and isomerization of 2-methylpentane over well characterized silica-supported platinum–ruthenium catalysts 33
Poly-(*N*,*N*-dimethyl-acrylamide)-(*p*-styrylsulphonate)-(*N*,*N'*-methylene-bis-acrylamide)
Relationships between physico-chemical properties and catalytic activity of polymer-supported palladium catalysts. Part I. Experimental investigations 355
Potassium
Catalytic dehydrogenation of 10,11-dihydro-5H-dibenz[b.f]azepine (iminodibenzyl) to 5H-dibenz[b.f]azepine (iminostilbene) over potassium-promoted iron oxides: effect of steam, potassium promotion and carbon dioxide treatment 367
Pretreatment
Investigation of the active state of supported palladium catalysts in the combustion of methane 121
Promotion
Catalytic dehydrogenation of 10,11-dihydro-5H-dibenz[b.f]azepine (iminodibenzyl) to 5H-dibenz[b.f]azepine (iminostilbene) over potassium-promoted iron oxides: effect of steam,

potassium promotion and carbon dioxide treatment 367
Propane ammoxidation
Modification of the surface reactivity of vanadium antimonate catalysts during catalytic propane ammoxidation 317
Propane aromatization
Characterization of modified ZSM-5 catalysts for propane aromatization prepared by a solid state reaction 59
Pseudocumene
Gas-phase oxygen oxidations of alkylaromatics over CVD Fe/Mo/borosilicate molecular sieve. V. *Para*-selective oxidations of methylaromatics 139
Pyridine
Enhancement of the catalytic properties of NiMo and CoMo alumina-supported sulfide catalysts by addition of ruthenium sulfide dispersed in Y zeolites 153
Raman spectroscopy
Mechanistic study of oxidative coupling of methane over Mn_2O_3–Na_2WO_4/SiO_2 catalyst 9
Reaction mechanism
Catalytic dehydrogenation of 10,11-dihydro-5H-dibenz[b.f]azepine (iminodibenzyl) to 5H-dibenz[b.f]azepine (iminostilbene) over potassium-promoted iron oxides: effect of steam, potassium promotion and carbon dioxide treatment 367
Reaction network
Oxidative dehydrogenation of ethane on supported vanadium-containing oxides 281
Reduction
Effect of preliminary heating on the activation of model iron catalyst for ammonia synthesis 253
SAPO
Selective synthesis of C_3–C_4 hydrocarbons through carbon dioxide hydrogenation on hybrid catalysts composed of a methanol synthesis catalyst and SAPO 91
Selectivity
H-[B]-ZSM-5 as catalyst for methanol reactions 345
Selectivity (1,4-dicyanobutene-1)
Catalytic dimerisation of acrylonitrile. I. Homogeneous catalysts from alkyl diarylphosphinites and dialkyl arylphosphonites 297
Silica
Stabilization of platinum on silica promoted with lanthanum oxide and zirconium oxide 339
Silica monolayer
Vapor-phase Beckmann rearrangement over silica monolayers prepared by chemical vapor deposition 1
Sintering
Stabilization of platinum on silica promoted with lanthanum oxide and zirconium oxide 339
SiO_2–TiO_2 solids
Preparation of TS-1 by wetness impregnation of amorphous SiO_2–TiO_2 solids: influence of the synthesis variables 391
Sol–gel method
Preparation of TS-1 by wetness impregnation of amorphous SiO_2–TiO_2 solids: influence of the synthesis variables 391
Spinel V^{IV} magnesium vanadate
Oxidative dehydrogenation of ethylbenzene over V^{IV} and V^{V} magnesium vanadates 221
Stabilization
Stabilization of platinum on silica promoted with lanthanum oxide and zirconium oxide 339
Steam
Oxidative dehydrogenation of ethylbenzene over V^{IV} and V^{V} magnesium vanadates 221
Catalytic dehydrogenation of 10,11-dihydro-5H-dibenz[b.f]azepine (iminodibenzyl) to 5H-dibenz[b.f]azepine (iminostilbene) over potassium-promoted iron oxides: effect of steam, potassium promotion and carbon dioxide treatment 367
Structure
Investigation of the active state of supported palladium catalysts in the combustion of methane 121
Styrene
Oxidative dehydrogenation of ethylbenzene over V^{IV} and V^{V} magnesium vanadates 221
Sulfide catalysts
Enhancement of the catalytic properties of NiMo and CoMo alumina-supported sulfide catalysts by addition of ruthenium sulfide dispersed in Y zeolites 153
Surface composition
Oxidative dehydrogenation of ethane on supported vanadium-containing oxides 281
Surface reactivity
Modification of the surface reactivity of vanadium antimonate catalysts during catalytic propane ammoxidation 317
Swellability
Relationships between physico-chemical properties and catalytic activity of polymer-supported palladium catalysts. Part I. Experimental investigations 355
Tantalum oxide/silica
Preparation, characterization, and catalytic activities of silica-supported tantalum oxide for the vapor phase decomposition of methyl *tert*-butyl ether 19

Temperature-programmed desorption
Selective synthesis of C_3–C_4 hydrocarbons through carbon dioxide hydrogenation on hybrid catalysts composed of a methanol synthesis catalyst and SAPO 91
Temperature-programmed reduction
Oxidative dehydrogenation of ethylbenzene over V^{IV} and V^{V} magnesium vanadates 221
Terephthaldehyde
Gas-phase oxygen oxidations of alkylaromatics over CVD Fe/Mo/borosilicate molecular sieve. V. *Para*-selective oxidations of methylaromatics 139
Thermal oxidation
Thermal-catalytic oxidation of waste gases 47
Toluene
Gas-phase oxygen oxidations of alkylaromatics over CVD Fe/Mo/borosilicate molecular sieve. V. *Para*-selective oxidations of methylaromatics 139
H-[B]-ZSM-5 as catalyst for methanol reactions 345
TS-1 synthesis
Preparation of TS-1 by wetness impregnation of amorphous SiO_2–TiO_2 solids: influence of the synthesis variables 391
UV-VIS spectroscopy
Spectroscopic studies of LaHY-FAU catalyst deactivation in the alkylation of isobutane with 1-butene 107
Vanadium antimonate
Modification of the surface reactivity of vanadium antimonate catalysts during catalytic propane ammoxidation 317
Vanadium-magnesium oxide catalyst
Oxidative dehydrogenation of ethylbenzene over V^{IV} and V^{V} magnesium vanadates 221
Vanadium mixed oxides
Oxidative dehydrogenation of ethane on supported vanadium-containing oxides 281
Waste gases
Thermal-catalytic oxidation of waste gases 47
Water
Isobutyric acid oxidative dehydrogenation over iron hydroxyphosphates. I. Catalytic properties and role of water 189
Xylenes
Gas-phase oxygen oxidations of alkylaromatics over CVD Fe/Mo/borosilicate molecular sieve. V. *Para*-selective oxidations of methylaromatics 139
Zeolites
Characterization of modified ZSM-5 catalysts for propane aromatization prepared by a solid state reaction 59
Alkylation of aniline with methanol: change in selectivity with acido-basicity of faujasite catalysts 73
Comparison of acid–base properties of FAU, EMT, LTL and MOR (Na forms) in benzene adsorption and alkylation of aniline with methanol 81
H-[B]-ZSM-5 as catalyst for methanol reactions 345
Zirconium oxide
Stabilization of platinum on silica promoted with lanthanum oxide and zirconium oxide 339
ZSM-5
Characterization of modified ZSM-5 catalysts for propane aromatization prepared by a solid state reaction 59
H-[B]-ZSM-5 as catalyst for methanol reactions 345
